PACKAGES AT A GLANCE

Three packages. One system.

Credit Repair

Same three prices in every industry. This sheet shows what lands in each package when the business is credit repair.

A system built for a business that cannot text: email and voice in under 60 seconds, a dispute-cycle engine that keeps clients past month five, and a partner program with monthly statements that never carry a score.

THE THREE PACKAGES

Pick the one that matches the leak.

The average client relationship in this business runs about five months, which means roughly 20% of the book leaves every month, and the two controllable causes are card declines and silence between rounds. Meta leads get a 42-hour average response across industries and 23% never hear back. Meanwhile the carriers forbid credit repair on 10DLC and toll-free with no resubmission path, so the texting most operators lean on is one audit away from losing the number.

The Dispute-Cycle Engine

A front door that answers by email and an automatic call-back attempt inside a minute, books the consult, and round-robins the rep. A Dispute-Cycle Engine that runs enrollment, the document chase, round-went-out and progress emails, decline recovery and a cancellation save lane inside CROA and the TSR. And a partner program where dealers and apartment communities get counter cards and monthly statements, and LOs and realtors get a no-fee variant.

FEATURE MATRIX · PART THREE

WHAT IS INCLUDED	LAUNCH	GROWTH	FULL ENGINE
MONEY DESK (BUILT AT SNAP CREDIT FIX)			
Owner-routed onboarding Every new client gets the welcome from their own rep: the rep's name, the rep's email and the rep's own sign-up link, so the file lands in that rep's queue. One message per client, never duplicates.	—	●	●
Secure two-step sign-up Clients never email sensitive data. The welcome sends them to a secure form that files everything directly into the system of record, and the email says plainly: don't email this to us. For you: SSN, ID and bureau logins go through the secure form, never email.	—	●	●
Billing that runs itself Branded invoice email; a reminder ladder (3 days before due, due day, a 3-day grace nudge, a final notice at 7 days); card-on-file autopay with a 'charge coming up' notice and a 'card declined, update your card' notice; receipts; invoice defaults (terms, due days, logo, from address). Email-first.	—	●	●
Auto-drafted invoices When a client is added in your industry system, a blank draft invoice for that client appears in the CRM, ready for staff to fill in and send. Nothing reaches the client until a person sends it. On Growth it needs the third-party integration add-on. For you: drafts from the dispute platform.	—	add-on	●
Commission ledger Commissions calculated from money actually collected, not signed deals, using your own plan rules (splits, first-half / second-half payouts, clawbacks, lead-type rates), with a monthly statement per rep and a 'needs attention' list.	—	—	●
Billing reconciliation One view of who is billed, who paid, who is overdue and who is being missed, across the CRM, your industry system and any old processor. Catches clients who are active in service but not billed anywhere.	—	—	●

● included add-on = available at the add-on price — not in this package

We never guarantee search rankings or traffic. Bundle prices replace the 15% with-the-build add-on discount; they don't stack.

Moving your payment processor: included at no charge. Every paying client moved off a processor that closed or is being replaced: new payment links or card-on-file, old invoices cancelled only after payment clears, so nobody is double-charged or dropped.

TERMS

The fine print, in plain words.

- **Same three packages, same prices, every industry.** What changes is what goes inside them for credit repair.
- Each monthly fee includes a **$197 platform license** for your white-labeled workspace. One bill, no separate software vendor. If you already pay for the platform we build on, take $197 off the monthly and we build in your account.
- **Ad spend and carrier messaging fees are billed at cost.** We don't mark them up.
- The **build fee is half at signature, half on delivery.**
- **Month to month after the first 90 days.** No long contract.
- **One-time add-ons bought with the build are 15% less** than the same add-on later. Monthly add-ons are not discounted.
- **Regulated industries get a compliance review in week one at no charge.** Every template goes to your compliance officer or counsel before it goes live. We build the system and the evidence file; we do not give legal advice.
- **Your accounts, data and content are yours** and export any time, and you keep the right to use the system we built even if you cancel. Our templates and methods stay ours, so no one can resell them.
- Agreements and invoices come from **Everborn Marketing LLC dba Everborn Productions**.

What we ask of you

About two hours for intake in week one, a thirty-minute review each week during the build, and one hour at handoff. After that, the only thing the system needs from your team is that they answer the leads it hands them. That one is not optional, and it is the single biggest difference between clients who get results and clients who don't.

Proof

Snap Credit Fix, a California credit repair company, runs on a system I built for them. It answers leads in under a minute and assigns them round-robin, runs a dealer referral program with printed QR counter cards and automated monthly statements, and sends a Monday report the president reads first. If it passes there, it passes in yours.
