

PACKAGES AT A GLANCE

Three packages. One system.

Credit Repair

Same three prices in every industry. This sheet shows what lands in each package when the business is credit repair.

A system built for a business that cannot text: email and voice in under 60 seconds, a dispute-cycle engine that keeps clients past month five, and a partner program with monthly statements that never carry a score.

THE THREE PACKAGES

Pick the one that matches the leak.

The average client relationship in this business runs about five months, which means roughly 20% of the book leaves every month, and the two controllable causes are card declines and silence between rounds. Meta leads get a 42-hour average response across industries and 23% never hear back. Meanwhile the carriers forbid credit repair on 10DLC and toll-free with no resubmission path, so the texting most operators lean on is one audit away from losing the number.

Launch

\$3,500 build

then **\$697** / month, platform included

A small team whose main leak is response time and follow-up.

- Tracked number, domain and email
- Pipelines in your team's language
- Lead capture with written consent
- Reply in under 60 seconds
- Round-robin with a claim window
- Missed-call voicemail drop and email
- Booking calendars
- 5-day follow-up drip

Growth

\$6,500 build

then **\$1,197** / month, platform included

Everything in Launch, plus onboarding, retention, re-activation and your industry engine.

- Everything in Launch
- Branded email templates
- Client onboarding
- Invoicing and payment links
- Document and signature chase
- The Dispute-Cycle Engine

Full Engine

\$9,500 build

then **\$1,697** / month, platform included

Everything in Growth, plus partners, full operations and the monthly think-tank.

- Everything in Growth
- Referral partner program
- Printable partner materials
- Monthly partner statements
- Partner outreach campaign
- Monthly automation think-tank

The Dispute-Cycle Engine

A front door that answers by email and an automatic call-back attempt inside a minute, books the consult, and round-robins the rep. A Dispute-Cycle Engine that runs enrollment, the document chase, round-went-out and progress emails, decline recovery and a cancellation save lane inside CROA and the TSR. And a partner program where dealers and apartment communities get counter cards and monthly statements, and LOs and realtors get a no-fee variant.

FEATURE MATRIX · PART ONE

WHAT IS INCLUDED	LAUNCH	GROWTH	FULL ENGINE
FOUNDATION AND SPEED TO LEAD			
Tracked number, domain and email	●	●	●
Pipelines in your team's language	●	●	●
Lead capture with written consent	●	●	●
Reply in under 60 seconds	●	●	●

Priority support	—	—	●
Monthly business report	—	—	●
Handoff booklet, kept current	—	—	●
Monthly automation think-tank	—	—	●

● included — not in this package

TERMS

The fine print, in plain words.

- **Same three packages, same prices, every industry.** What changes is what goes inside them for credit repair.
- Each monthly fee includes a **\$197 platform licence** for your white-labeled workspace. One bill, no separate software vendor. If you already own your own HighLevel account, take \$197 off the monthly and we build in yours.
- **Ad spend and carrier messaging fees are billed at cost.** We don't mark them up.
- The **build fee is half at signature, half on delivery.**
- **Month to month after the first 90 days.** No long contract.
- **Add-ons bought with the build are 15% less** than the same add-on later.
- **Regulated industries get a compliance review in week one at no charge.** Every template goes to your compliance officer or counsel before it goes live. We build the system and the evidence file; we do not give legal advice.
- **You own everything** — accounts, data, scripts and documents. Your contacts, pipelines, templates and documents export at any time, and the domain and sheets are registered in your name.

What we ask of you

About two hours for intake in week one, a thirty-minute review each week during the build, and one hour at handoff. After that, the only thing the system needs from your team is that they answer the leads it hands them. That one is not optional, and it is the single biggest difference between clients who get results and clients who don't.

Proof

Snap Credit Fix, a California credit repair company in one of the most regulated categories there is, runs on a system I built for them: leads answered in under a minute and assigned round-robin, a 52-week nurture, a re-activation campaign across roughly 40,000 past leads, a dealer referral program with printed QR counter cards and automated monthly statements, and a Monday report the president reads first. If it passes there, it passes in yours.
