PACKAGES AT A GLANCE

Three packages. One system.

Real Estate

Same three prices in every industry. This sheet shows what lands in each package when the business is residential real estate.

Speed-to-lead on every portal inquiry, a contract-to-close board that runs the deadlines, and a database engine that touches the whole sphere instead of the twenty people the agent remembers.

THE THREE PACKAGES

Pick the one that matches the leak.

Eighty percent of sellers contact only one agent and 67% of first-time buyers hire the first agent they speak to, so the business is won by being first and being remembered. The median member's repeat and past-client business is about half of all transactions, yet the sphere is touched from memory, and the TC rebuilds the status list by hand for every file in escrow.

The Contract-to-Close Engine

A sub-60-second response on every portal lead, form and missed call, routed with a claim window. A Contract-to-Close Engine that back-solves every deadline from the executed date and chases the documents. And a perpetual database program with reply detection that turns a market update into a listing appointment.

FEATURE MATRIX · PART THREE

WHAT IS INCLUDED	LAUNCH	GROWTH	FULL ENGINE
MONEY DESK (BUILT AT SNAP CREDIT FIX)			
Owner-routed onboarding Every new client gets the welcome from their own rep: the rep's name, the rep's email and the rep's own sign-up link, so the file lands in that rep's queue. One message per client, never duplicates. For you: per agent.	—	●	●
Commission ledger Commissions calculated from money actually collected, not signed deals, using your own plan rules (splits, first-half / second-half payouts, clawbacks, lead-type rates), with a monthly statement per rep and a 'needs attention' list. For you: team splits.	—	—	●

● included add-on = available at the add-on price — not in this package

We never guarantee search rankings or traffic. Bundle prices replace the 15% with-the-build add-on discount; they don't stack.

TERMS

The fine print, in plain words.

- **Same three packages, same prices, every industry.** What changes is what goes inside them for residential real estate.
- Each monthly fee includes a **$197 platform license** for your white-labeled workspace. One bill, no separate software vendor. If you already pay for the platform we build on, take $197 off the monthly and we build in your account.
- **Ad spend and carrier messaging fees are billed at cost.** We don't mark them up.
- The **build fee is half at signature, half on delivery.**
- **Month to month after the first 90 days.** No long contract.
- **One-time add-ons bought with the build are 15% less** than the same add-on later. Monthly add-ons are not discounted.
- **Regulated industries get a compliance review in week one at no charge.** Every template goes to your compliance officer or counsel before it goes live. We build the system and the evidence file; we do not give legal advice.
- **Your accounts, data and content are yours** and export any time, and you keep the right to use the system we built even if you cancel. Our templates and methods stay ours, so no one can resell them.
- Agreements and invoices come from **Everborn Marketing LLC dba Everborn Productions**.

What we ask of you

About two hours for intake in week one, a thirty-minute review each week during the build, and one hour at handoff. After that, the only thing the system needs from your team is that they answer the leads it hands them. That one is not optional, and it is the single biggest difference between clients who get results and clients who don't.

Proof

Snap Credit Fix, a California credit repair company, runs on a system I built for them. It answers leads in under a minute and assigns them round-robin, runs a dealer referral program with printed QR counter cards and automated monthly statements, and sends a Monday report the president reads first. If it passes there, it passes in yours.
